30. PERFORMANCE REVIEW

For the first quarter ended 31 March 2013, the Bank posted a pre-tax profit of RM339.7 million, an increase of RM40.4 million or 13.5% as compared to the corresponding period last year. The better performance was mainly contributed by higher total income, lower allowance for impairment on loans and advances, higher share of net profit of associates but moderated by higher other operating expenses.

Net interest income grew by 6.7% or RM23.4 million to RM371.0 million mainly driven by healthy loans growth and higher interest income from investment securities. Other operating income increased marginally by 3.2% or RM5.0 million to RM160.5 million contributed by higher fee income and higher profit on foreign exchange but offset by lower income on financial products.

Total operating expenses rose by RM19.5 million or 11.8% to RM184.1 million mainly attributed to higher staff expenses and marketing expenses. Expense to income ratio stood at 34.6%.

Allowance for impairment on loans and advances reduced by RM49.0 million to RM0.4 million mainly due to lower individual impairment. Asset quality remained healthy with the net non-performing loans ratio maintained at 1.2%.

Year to date, gross loans registered a growth of RM1.3 billion or 2.3% to RM57.2 billion. The growth was mainly from households, real estate and construction sector.

Non bank deposits grew marginally by 0.8% or RM0.6 billion to RM66.1 billion largely contributed by higher fixed deposits but offset by lower negotiable instruments of deposits and others deposits. Net loans to deposit ratio stood at 85.1%.

31. PROSPECTS FOR 2013

The global growth outlook is expected to improve with modest growth in US and in Asia. However, the Eurozone is expected to remain weak.

Nevertheless, given the challenging external environment, Malaysian economy is expected to remain steady with Gross Domestic Product (GDP) growing by 5% to 6% this year, anchored by the continued strong domestic demand in private investment and consumption and healthy employment conditions. Inflation is expected to average between 2.0% to 3.0%.

The economic performance in Asia is likely to improve in 2013 and the domestic business activities are expected to gain more traction in second half of 2013. The Bank is expected to harness the potential of its extensive regional network, through an integrated platform to leverage its regional scale and capabilities to better support cross border transactions.

The Bank is cautiously optimistic to achieve a satisfactory result in 2013.
