EXPLANATORY NOTES

1. BASIS OF PREPARATION

The unaudited condensed interim financial statements have been prepared in accordance with MFRS 134: Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB").

The unaudited condensed interim financial statements should be read in conjunction with the audited annual financial statements of the Group and of the Bank for the financial year ended 31 December 2018. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial positions and performance of the Group and of the Bank since the financial year ended 31 December 2018.

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2018, except for the adoption of the following MFRS, Amendments to MFRSs, Annual Improvements to MFRSs and IC Interpretation, which are only applicable for financial periods beginning on or after 1 January 2019:

MFRS 16 Leases

Amendments to MFRS 9 Prepayment Features with Negative Compensation

Amendments to MFRS 128 Long-term Interests in Associates and Joint Ventures

Amendments to MFRS 119 Plan Amendment, Curtailment or Settlement

Annual Improvements to MFRS Standards 2015-2017 Cycle

IC Interpretation 23 Uncertainty over Income Tax Treatments

The adoption of the above MFRS, Amendments to MFRSs, Annual Improvements to MFRSs and IC Interpretation did not have any material impact on the financial statements of the Group and of the Bank. The Group and the Bank have adopted the new MFRS 16 as described below:

MFRS 16

MFRS 16 *Leases* supersedes MFRS 117 *Leases* and its related interpretations. Under MFRS 16 *Leases*, a lease is a contract that conveys the right to control the use of an identified asset for a period of time in exchange for consideration. MFRS 16 introduces a single accounting model for lessee and eliminated the classification of leases by the lessee as either financial lease (on balance sheet) or operating lease (off balance sheet). Lessee is required to recognise a liability to make lease payment and an asset representing the right-to-use the underlying asset during the lease term. For a lessor, MFRS 16 continues to allow the lessor to classify leases as either operating leases or financial leases and to account for these two types of leases differently.

The Group and the Bank transitioned to MFRS 16 in accordance with the modified retrospective approach, whereby prior-year figures were not restated, but instead shall recognise the cumulative effect of initial application of this standard as an adjustment to opening retained earning. The Group and the Bank have also elected to apply exemption for leases expiring within 12 months of the date of initial application, as short term leases. The lease payments are recognised as an expenses on a straight line basis over the remaining lease term during the current financial period.

EXPLANATORY NOTES**18. DERIVATIVE FINANCIAL ASSETS/(LIABILITIES)**

Financial derivatives are instruments whose values change in response to the change in one or more 'underlying', such as foreign exchange rate, security price and credit index. They include forwards, swaps, futures, options and credit derivatives. In the normal course of business, the Group and the Bank customise derivatives to meet specific needs of their customers. The Group and the Bank also transact in these derivatives for proprietary trading purposes as well as to manage its assets/liabilities and structural positions. While the Group and the Bank also enter into other foreign exchange forward contracts with the intention to reduce the foreign exchange risk of expected sales and purchases for customers, these other contracts are not designated as hedge relationships and are measured at fair value through profit or loss.

The fair values of the derivatives are as follows:

The table above analyses the principal amounts and the positive and negative fair values of the Group's and the Bank's financial derivatives. The notional amounts of these instruments indicate the value of transactions outstanding at the reporting date for both trading and hedging instruments. They do not necessarily indicate the amount of future cash flows or the fair value of the derivatives and therefore, do not represent total amount of risk. The positive and negative fair values represent the favourable and unfavourable fair values respectively of hedging and trading derivatives as a result of fluctuations in the value of the underlying relative to their contractual terms as at reporting date.

- (a) On 8 May 2015, the Bank issued RM1 billion Basel III compliant Tier 2 subordinated bonds (10 years maturity, non-callable 5 years) ("the Bond 1").

The Bond 1 bears interest at the rate of 4.65% per annum. The coupon rate herein is applicable throughout the tenure of the subordinated bonds.

The Bond 1 may be redeemed at par at the option of the Bank, in part or in whole, on 8 May 2020 or at any interest payment date thereafter.

The interest is payable semi-annually in arrears on 8 May and 8 November each year commencing 9 November 2015.

- (b) On 25 July 2018, the Bank issued RM600 million Basel III compliant Tier 2 subordinated bonds (10 years maturity, non-callable 5 years) ("the Bond 2").

The Bond 2 bears interest at the rate of 4.80% per annum. The coupon rate herein is applicable throughout the tenure of the subordinated bonds.

The Bond 2 may be redeemed at par at the option of the Bank, in part or in whole, on 25 July 2023 or at any interest payment date thereafter.

The interest is payable semi-annually in arrears on 25 January and 25 July each year commencing 25 January 2019.

The Bond 2 has been rated AA1 by Rating Agency Malaysia Bhd and it qualifies as Tier 2 capital for the purpose of determining the Bank's capital adequacy ratio.

- (c) Fair value hedge

The Bank uses fair value hedge to protect changes in fair value of the Bond 1 and Bond 2. The Bank primarily uses interest rate swap as hedge of interest rate risk.

As at 30 September 2019, the Bank had an interest rate swap agreement in place with notional amount of RM500 million (31 December 2018: RM500 million) for Bond 1 and RM600 million (31 December 2017: RM600 million) for Bond 2.

For Bond 1, the Bank receives a fixed interest rate of 4.65% per annum and pays variable interests rate of 6-month KLIBOR plus 0.590% to 0.725% on the notional amount.

For Bond 2, the Bank receives a fixed interest rate of 3.835% per annum and pays variable interests rate of 3-month KLIBOR on the notional amount.

The swap is being used to hedge exposure to changes in fair value of fixed rate of both bonds, which have a fixed rate.

The movements in fair value of the interest rate swap of RM12,709,000 loss (31 December 2018: RM620,000 gain) are recognised in trading and investment income during the period. There is no ineffectiveness recognised for this hedge.

34. PERFORMANCE REVIEW

For the nine months ended 30 September 2019, the Group recorded a profit before taxation of RM1,198.4 million, a decrease of 4.6% or RM58.4 million compared to same period last year.

Total operating income increased by 2.0% or RM43.1 million to RM2,253.3 million mainly from higher other operating income, partially offset by lower net interest income and net income from Islamic Banking operations. Other operating income increased 7.9% or RM50.9 million to RM695.7 million mainly due to higher trading and investment income.

Expenses increased by 7.9% or RM66.0 million to RM907.3 million driven by higher staff expenses and establishment related expenses.

Total allowance for expected credit losses increased by 31.6% or RM35.5 million to RM147.7 million mainly due to higher expected credit loss on loans, advances and financing coupled with other financial assets, offset by write-back of expected credit loss on commitments and contingencies.

35. PROSPECTS FOR 2019

The global economy is expanding at a slower pace amid weakness in manufacturing and trade. Going forward, escalating trade disputes and a more pronounced global slowdown remain a key source of risk that would affect global trade and investment activities. Major central banks have loosened monetary policy with interest rate cuts and quantitative easing to support growth and ease financial conditions. Asia is demonstrating its resilience amid rising external headwinds by lowering interest rates and initiating fiscal measures to secure growth and stability.

Malaysia's gross domestic product is projected to expand by 4.6% in 2019, which marks a mild moderation from 4.7% in 2018. Private sector spending will be the key driver of growth alongside a recovery in commodity sectors. Malaysia's economic fundamentals remain sound. The country benefits from a diversified economic structure, improved external position, resilient institutions, favourable demographics, significant natural resources, strategic geographical location, and robust macro policies. The ongoing efforts to improve transparency and accountability will strengthen investor confidence over time. Malaysia will continue to benefit from various regional and multilateral initiatives which are catalysts for further development, trade and investment in the region. Over the medium term, Malaysia's economy continues to look attractive given its stable fundamentals and ongoing policy reforms to stimulate economic growth through higher value added labour, capital and technology.

Amid the moderate economic growth, we continue to focus on building a sustainable business by investing in our people and capabilities for the future whilst keeping our customers at the centre.

The Group is expected to achieve fair set of result in 2019.
