Important Notes:

For Individual TIN (with prefix IG):

- The new prefix for individual TIN is now "IG" (Replacing 'OG' or 'SG'). For example, if the TIN is 'SG123456789', please input it as 'IG123456789'.
- The numeric character within the TIN remains unchanged, with a maximum length of 14 characters including the prefix.

For Non-Individual TIN (with prefix C, CS, D, F, FA, PT, TA, TC, TN, TR, TP, J & LE):

- If your firm TIN begins with a zero "0" after the prefix, please remove any initial zeros after the prefix for successful LHDN's validation. For example, if the TIN is 'C01234567890', please notify us as 'C1234567890'.
- If your firm TIN does not end with a zero '0' (e.g., C123456789), please ensure you add an additional zero '0' at the end (e.g. C1234567890). Please note that Non-Individual TIN always ends with a zero '0'.
