<p>1. What is this product about?</p>	
<p>Home Financing-i is to facilitate the purchase of house under construction, completed property from developer or vendor (sub-sale), refinancing and re-mortgage. The Bank's Sale Price is derived based on the Contracted Profit Rate, which is fixed throughout the tenure. However, the Effective Profit Rate is calculated on a variable rate basis and the facility is secured against the property to be financed. Additional security such as guarantor, etc. may be requested depending on the bank's assessment.</p>	
<p>2. What is the Shariah concept applicable?</p>	
<ul style="list-style-type: none"> The Shariah concept used is Tawarruq. Tawarruq is an arrangement that involves a Sale of a commodity or asset to customer based on deferred payment basis by way of Murabahah. In this case, the Customer purchases the commodity as the underlying asset from the Bank. The commodity or asset is then sold for cash to a party other than original seller.

<ul style="list-style-type: none"> Total amount financed: RM _____ (_____% of house price) Financing Tenure: _____ years Contracted Selling Price: RM _____ 	<p style="text-align: center;"><u>Profit Rate</u></p> <ul style="list-style-type: none"> Contracted Profit Rate (CPR): _____% Islamic Base Rate (IBR): _____% Margin of Profit Rate: + _____% Effective Profit Rate: _____% Non Zero Entry Cost (ZEC)
<p>4. What is Islamic Base Rate (IBR)?</p>	
<p>The IBR we offer on this product is made up of two parts, our benchmark cost of funds (COF) and the Statutory Reserve Requirement (SRR) cost imposed by Bank Negara Malaysia. Our benchmark COF reflects the cost of raising new funds and is based on combination of 3 Months Kuala Lumpur Interbank Offered Rate (KLIBOR) and marginal cost to raise funds from new fixed deposits.</p>	
<p>5. What are possible scenarios to trigger a change in the IBR?</p>	
<p>Our IBR can rise or fall due to changes in the benchmark COF and changes in the SRR. Changes in the benchmark COF could occur due to changes in Overnight Policy Rate (OPR) as decided by the Monetary Policy Committee of Bank Negara Malaysia, as well as other factors such as 3 Month Kuala Lumpur Interbank Rate (KLIBOR) or marginal cost to raise funds from new fixed deposits.</p>
